GAME RULES

ULTIMATE TEXAS HOLD 'EM

PROGRESSIVE

In Ultimate Texas Hold 'Em the player and the dealer receive two cards each and make their five card hands in combination with five community cards. The dealer qualifies with a pair or better. When the dealer does not qualify, your Ante wager is returned and all other wagers receive action. The best five card hand wins.

To play against the dealer, the player must make an Ante and Blind wager. After viewing their cards, to continue play, the player must make a Play wager three to four times their Ante, before any community cards are revealed. Once the three card flop—the first three community cards— are exposed you may check or bet two times your Ante wager. After all community cards are exposed, if you have not made a Play wager you may fold or make a Play wager equal to your Ante wager.

If your hand beats the dealer's your Play and Ante bets win even money. If you tie, those bets push.

RANKING OF HANDS

Highest to lowest hands are as follows: Royal Flush, Straight Flush, Quads (Four-of-a-Kind), Full House, Flush, Straight, Three-of-a-Kind, Two Pair, Pair, and Highest Card.

BLIND BONUS

A bonus is paid on the Blind if a player hits a straight or better and beats the dealer. If you beat the dealer and your hand is less than a straight, the Blind pushes. If you tie the dealer the Blind pushes.
